

## Let's Trash Cancer!

Sanipac is proud to sponsor the Eugene/Springfield Relay For Life. Our team, the "**Sanipac Cancer Trashers**" hits the track each year raising money to show our support for those battling this terrible disease.

This year the event will be held at Willamette High School starting at 6pm on July 26th and runs all night long.

The Relay For Life serves as a major fundraiser for the American Cancer Society. The event is a time to honor cancer survivors, remember loved ones lost, and provide support and encouragement for those currently in the fight .

Sanipac would like to thank other business partners in our community that contribute to this worthy cause.

If you or your business would like to start a Relay team please contact Kristen Salladay at 541-434-3101 or email: [kristen.salladay@cancer.org](mailto:kristen.salladay@cancer.org).

Sanipac is also proud to provide sustainability efforts for the relay. Thanks for recycling at the event and be sure to stop and say hi to your driver at the Duck Truck!

## Hints From Your Hauler: CART PLACEMENT

1st Option--If there is a grass strip between the curb and sidewalk place your carts and blue box on the grass next to the curb.

2nd Option--If the sidewalk is directly next to the street, place the carts and blue box in the street with the wheels against the curb.

3rd Option--If placing the equipment in the street blocks a bike lane, place the equipment on the apron of your driveway.

Your **BLUE BOX** is for **CLEAN** and **UNBROKEN GLASS ONLY**

"Glass recycling is not available in all of our service areas"

## COMMINGLE RECYCLE INSTRUCTIONS:

All Recycling Must Be **CLEAN**

### INCLUDE ONLY THE FOLLOWING ITEMS:

- **Cardboard** - must be flat
- **Paper** - mail, newspaper, magazines, phone books, paper bags, wrapping paper, computer paper, colored paper
- **SHREDDED PAPER** - must be contained in a paper bag with the top rolled closed
- **Plastic** - jugs, tubs & bottles only - **NO LIDS**
- **Metal** - food and beverage cans (**NO UNATTACHED LIDS**) & clean aluminum foil crumpled into a ball no smaller than a fist

## COMPOSTING

**BACKYARD COMPOSTING IS A SIMPLE METHOD OF TURNING HOUSEHOLD WASTE INTO VALUABLE FERTILIZER AND ORGANIC SOIL FOR YOUR GARDEN.** Understanding the composting process is an important first step. All composting requires three basic ingredients:

- **Browns** - Including materials such as dead leaves and small branches (provides carbon)
- **Greens** - Including materials such as grass clippings, fruit and vegetable scraps and coffee grounds (provides nitrogen)
- **Water** - (provides moisture to help breakdown the organic matter)

It's important for compost development to have the right amount of greens, browns and water.

The following is a commonly-used method:

1. Put your compost pile or bin in a shady spot near a water source.
2. To start the composting process you will need **50% green materials** and **50% brown materials** cut into pieces no larger than 1" in size. Mix the materials and **add water** every 7-10 days.
3. After your compost pile is established, add brown materials and green materials as you collect them. Bury fruits and vegetable matter under 10 inches of compost material. Be sure to moisten materials as they are added.

To aid the process, you can cover the compost pile with a tarp to keep it moist. Turning your compost pile periodically also aids the composting process.

Composting is a naturally-occurring process and even with a minimal amount of attention, you can have wonderful results.

**Sharps NEVER belong in your recycling or garbage carts!**

Call 541-736-3600 ext. 0 for proper disposal information

## Haul-i-days

If your pick up day falls on or following one of these holidays, your pick up will be one day later ending with Friday's pick up being done on Saturday.

**New Years Day**      **Labor Day**  
**Memorial Day**      **Thanksgiving Day**  
**4th July**      **Christmas Day**

Example: Thanksgiving Day only affects Thursday & Friday customers
