

# The Sanipac® Recycler

Summer 2016  
Commercial Edition

In a small community like Creswell, it's important to take care of your fellow community members in need. Some call it paying it forward, others call it giving back. Recently the Hope Restored Project of Creswell did just that. With the help of counselors from the Creslane School District, two families were selected to be given a helping hand and a better quality of life.

In May, between 150 to 250 community volunteers came out to help with various cleanup and construction projects that ranged from hauling items away to painting a castle on a wall. They had 55 hours to transform two houses that were in desperate need of refurbishments. Not only did they make amazing transformations to the houses, the families were given hope. Hope that was restored by the volunteers that came out to help, the local businesses that donated services, the school district counselors that cared enough to speak up, and the Hope Restored Project of Creswell that orchestrated such an amazing community giving event.

*"The purpose of the Hope Restored Project is to help families with school-age children whose homes are in need of refurbishment in order to create an environment that is more conducive to learning. Our focus is on families who own their own homes, but due to life circumstances or hardships have been unable to carry out repairs or improvements that are needed for a better quality of life."*

Doing good in our community
